Что такое Mendeley?

Бесплатное ПО для исследователей, которое

- работает на платформах Win/Mac/Linux
- поддерживает основные браузеры

Версия для PC

Веб-версия

Мобильные приложения
для iOS и Android

Mendeley позволит Вам:

Организовать документы и ссылки

Правильно **цитировать** источники

Сотрудничать, создавая и вступая в группы

Видеть популярность статей и рекомендации коллег

Следить за новыми исследованиями

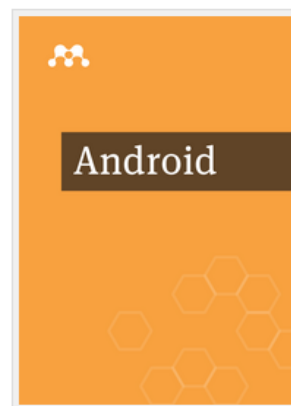

Первые шаги

Как начать работу с Mendeley?

Инструкции по установке

1. Обратите внимание на инфо-сайт [Mendeley Community](#)
2. Выберите версии, которыми Вы будете пользоваться (Desktop, Web, iOS, Android).
3. Откройте соответствующее руководство.

Инструкции по установке

Программа (Desktop - версия)

Организация библиотеки

Первые шаги после установки программы

Mendeley - интерфейс (Desktop)

The screenshot shows the Mendeley Desktop application window. The interface is divided into several sections:

- 1. Меню (Menu):** Located at the top left, it includes buttons for 'Documents', 'Folders', and 'Sync'.
- 2. Синхронизация (Sync):** A blue circular callout points to the 'Sync' button in the top menu.
- 3. Библиотека (Library):** A blue circular callout points to the 'All Documents' section in the left sidebar.
- 4. Свойства документа (Document Properties):** A blue circular callout points to the 'Details' tab on the right sidebar, which displays information about the selected document.
- 5. Поиск (Search):** A blue circular callout points to the search bar at the top right of the window.

The main area displays a list of documents with columns for Authors, Title, Year, Published In, and Added. The selected document is 'Mismatch Repair proteins are recruited to replicating DNA through interaction with Proliferating Cell Nuclear Antigen (PCNA)' by P. Masih, D. Kunnev, and T. Melendy, published in 2008 in *Nucleic Acids Research*.

1. Меню
2. Синхронизация
3. Библиотека
4. Свойства документа
5. Поиск

Структура библиотеки

The screenshot displays the Mendeley Desktop application window. The interface is divided into several sections:

- Top Bar:** Contains icons for Documents, Folders, Related, and Sync, along with a search bar.
- Left Sidebar:**
 - MENDELEY:** Includes Literature Search and Mendeley Suggest.
 - MY LIBRARY:** Lists All Documents (selected), Recently Added, Favorites, Needs Review, My Publications, Unsorted, The Lancet, and Create Folder...
 - GROUPS:** Includes Create Group...
 - Filter by My Tags:** A dropdown menu currently showing 'All mendeley'.
- Main Document List:** A table with columns: Authors, Title, Year, and Published In.

| Authors | Title | Year | Published In |

Journal: *Folding & design*

Year: 1998

Volume: 3

Issue: 2

Pages: 127-39

Abstract:

Over the past few years novel folding mechanisms of globular proteins have been proposed using minimal lattice and off-lattice models. The factors determining the cooperativity of folding in these models and especially their explicit relation to experiments have not been fully established, however.

Организатор файлов

The screenshot shows the 'File Organizer' tab in the Mendeley Desktop Preferences window. The window has a title bar with standard macOS window controls. Below the title bar is a tabbed interface with tabs for 'General', 'Document Details', 'File Organizer' (selected), 'Watched Folders', 'BibTeX', 'Zotero', and 'Connection'. The 'File Organizer' section contains several options and fields:

- ☒ **Organize my files**: This section is highlighted with a black box. It includes a text field for 'Copy files to:' containing the path '/Users/rvidal/Documents/Mendeley Desktop', a 'Browse...' button, and a 'Tidy Up' button. Below this is a blue link 'View in Finder'.
- ☐ **Sort files into subfolders**: This section includes an 'Unused fields:' field with 'Year' and 'Title' buttons, a instruction 'Drag bubbles down to add or up to remove.', a 'Folder path:' field with 'Author' and 'Journal' buttons, and an 'Example:' path showing the structure: '/Users/rvidal/Documents/Mendeley Desktop/Author/Journal/'.
- ☒ **Rename document files**: This section is highlighted with a black box. It includes an 'Unused fields:' field with a 'Journal' button, a instruction 'Drag bubbles down to add or up to remove.', a dropdown menu set to 'Hyphen-separated', a 'File name:' field with 'Year', 'Author', and 'Title' buttons, and an 'Example:' path showing the format: 'Year - Author - Title.pdf'.

At the bottom of the window are three buttons: 'Apply', 'Cancel', and 'OK'.

Check for Duplicates

The screenshot shows the Mendeley Desktop application. A window titled "Integrative Analysis" is open, displaying a list of 1 set of duplicates found in 'Integrative Analysis'. The list contains three entries, all with the same authors (Berger, Michael F.; Levin, Joshua Z.; Vijay...) and title (Integrative analysis of the melanoma transcriptome). The confidence level is shown as a slider.

On the right side of the application, a detailed view of a publication is shown. The title is "Integrative analysis of the melanoma transcriptome" by M. Berger, J. Levin, K. Vijayendran et al. The journal is "Genome Research", published in 2010, Volume 20, Issue 4, Pages 413-427. The abstract describes global studies of transcript structure and abundance in cancer cells, enabling the systematic discovery of aberrations that contribute to carcinogenesis, including gene fusions, alternative splice isoforms, and somatic mutations. The study developed a systematic approach to characterize the spectrum of cancer-associated mRNA alterations through integration of transcriptomic and structural genomic data, and applied this approach to generate new insights into melanoma biology. Using paired-end massively parallel sequencing of cDNA (RNA-seq) together with analyses of high-resolution chromosomal copy number data, they identified 11 novel melanoma genes.

Open Access Publishing: What Authors Want

Authors: R. Nariani, L. Fernandez

[View research catalog entry for this paper](#)

Journal: *College & Research Libraries*

Year: 2012

Volume: 73

Issue:

Pages: 182-195

Abstract:

Campus-based open access author funds are being considered by many academic libraries as a way to support authors publishing in open access journals. Article processing fees for open access have been introduced recently by publishers and have not yet been widely accepted by authors. Few studies have surveyed authors on their reasons for publishing open access and their perceptions of open access journals. The present study was designed to gauge the uptake of library support for author funding and author satisfaction with open access publishing. Results indicate that York University authors are increasingly publishing in open access journals and are appreciative of library funding initiatives. The wider implications of open access are discussed along with specific recommendations for publishers.

"An open-access fund is a pool of money set aside by an institution to support publication models that equitable support for the business model for open access journals. This would place the subscription and article processing fee

Windows

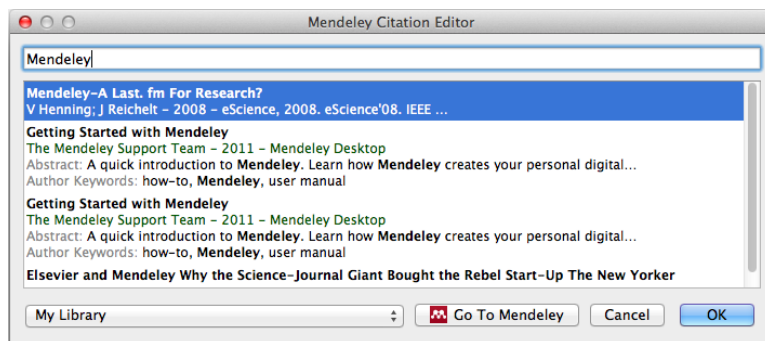

Цитируйте, не выходя из Word

1. Нажмите 'Insert or Edit Citation'

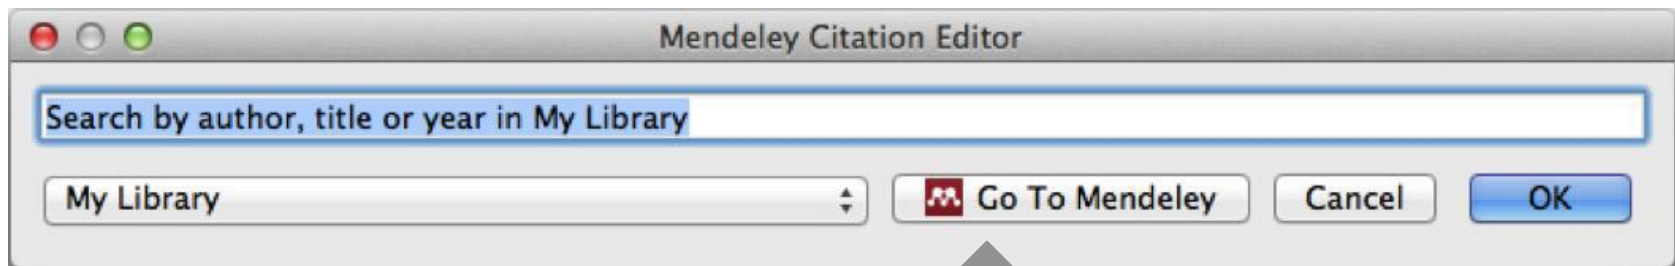

2. Найдите статью с помощью поиска по автору, году публикации, названию статьи или вручную из Вашей библиотеки Mendeley

3. Выберите статью или книгу, и нажмите 'ок' чтобы вставить ссылку в текст.

Поиск ссылки в Вашей библиотеке

1. При необходимости найти статью в библиотеке вручную, нажмите “Go to Mendeley”

2. Появится кнопка ‘Cite’. Воспользуйтесь ей, когда найдете необходимую статью и ссылка появится в тексте.

Редактирование ссылок

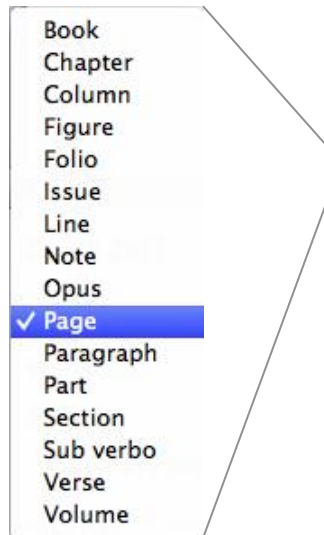

1. Выделите цитату и нажмите 'Insert or Edit Citation'

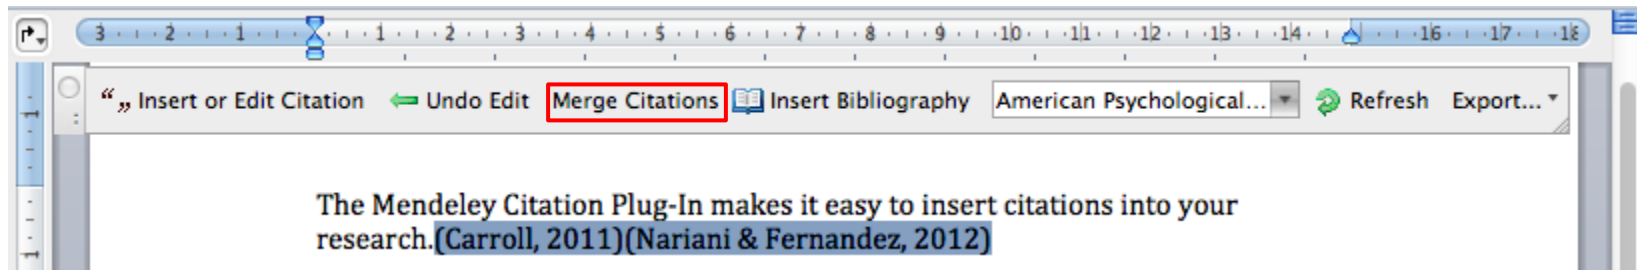

2. Кликните на цитату
(в примере:
'Carroll 2011')

3. Используйте редактор ссылок, чтобы добавить недостающую информацию или необычные параметры (напр. номер иллюстрации)

Слияние цитат

Создание списка литературы

1. Выберите
'Insert

3. Готово!

Выбираем CSL стиль

Выберите нужный Вам стиль оформления библиографии или найдите его в базе Mendeley среди 6,000+ доступных стилей.

ГОСТ Р 7.0.5-2008 и ГОСТ 7.0.11-2011

Стиль ГОСТ Р 7.0.5-2008 может быть установлен в Mendeley (через меню Get More Styles и поисковое слово GOST).

Доступен также стиль ГОСТ Р 7.0.11-2011.

Скачать стили и прочитать об особенностях их работы со статьями на кириллице можно в [блоге А.А. Четверикова](#).

Редактор CSL стилей

The screenshot shows the Visual CSL Editor web application. The browser address bar displays `editor.citationstyles.org/visualEditor/`. The interface includes a top navigation bar with links for 'About', 'Search by name', 'Search by example', 'Visual editor' (selected), and 'Code editor'. A 'feedback' button is also present. Below the navigation bar, the current style is identified as 'American Psychological Association 6th edition'. The left sidebar contains a tree view with categories: 'STYLE INFO' (Info, Global Formatting Options), 'INLINE CITATIONS' (Layout, Sort), 'BIBLIOGRAPHY' (Layout, Sort), and 'MACROS' (listing various macro types like container-contributors, secondary contributors, author, author-short, access, title, publisher, event, issued, issued-sort, issued-year, edition, locators, citation-locator, container, container-title). An 'ADVANCED' section also lists 'Global Formatting Options'. The main content area is divided into 'EXAMPLE CITATIONS' and 'EXAMPLE BIBLIOGRAPHY'. The 'Info' tab is active, showing a form with fields for Title, Title (short), ID, Summary, Rights, Published, ISSN, and eISSN. The 'Title' field contains 'American Psychological Association 6th edition', 'Title (short)' contains 'APA', 'ID' contains 'http://www.zotero.org/styles/apa', and 'Rights' contains 'This work is licensed under a Creative Commons Attribution-ShareAlike 3.0'.

Сотрудничайте

Создавайте и вступайте в группы для обмена ссылками

Создание группы

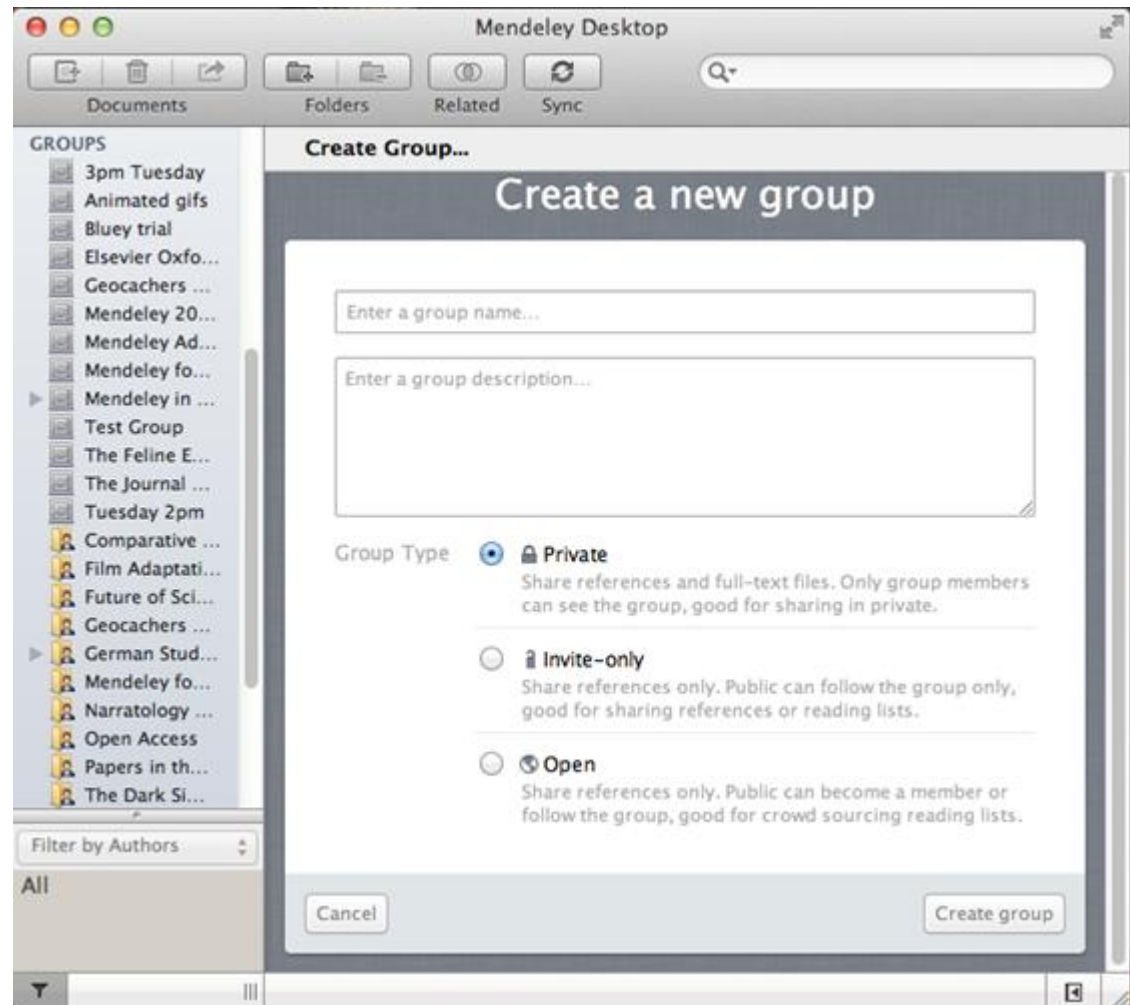

Есть 3 вида групп:

- private
- invite-only
- open

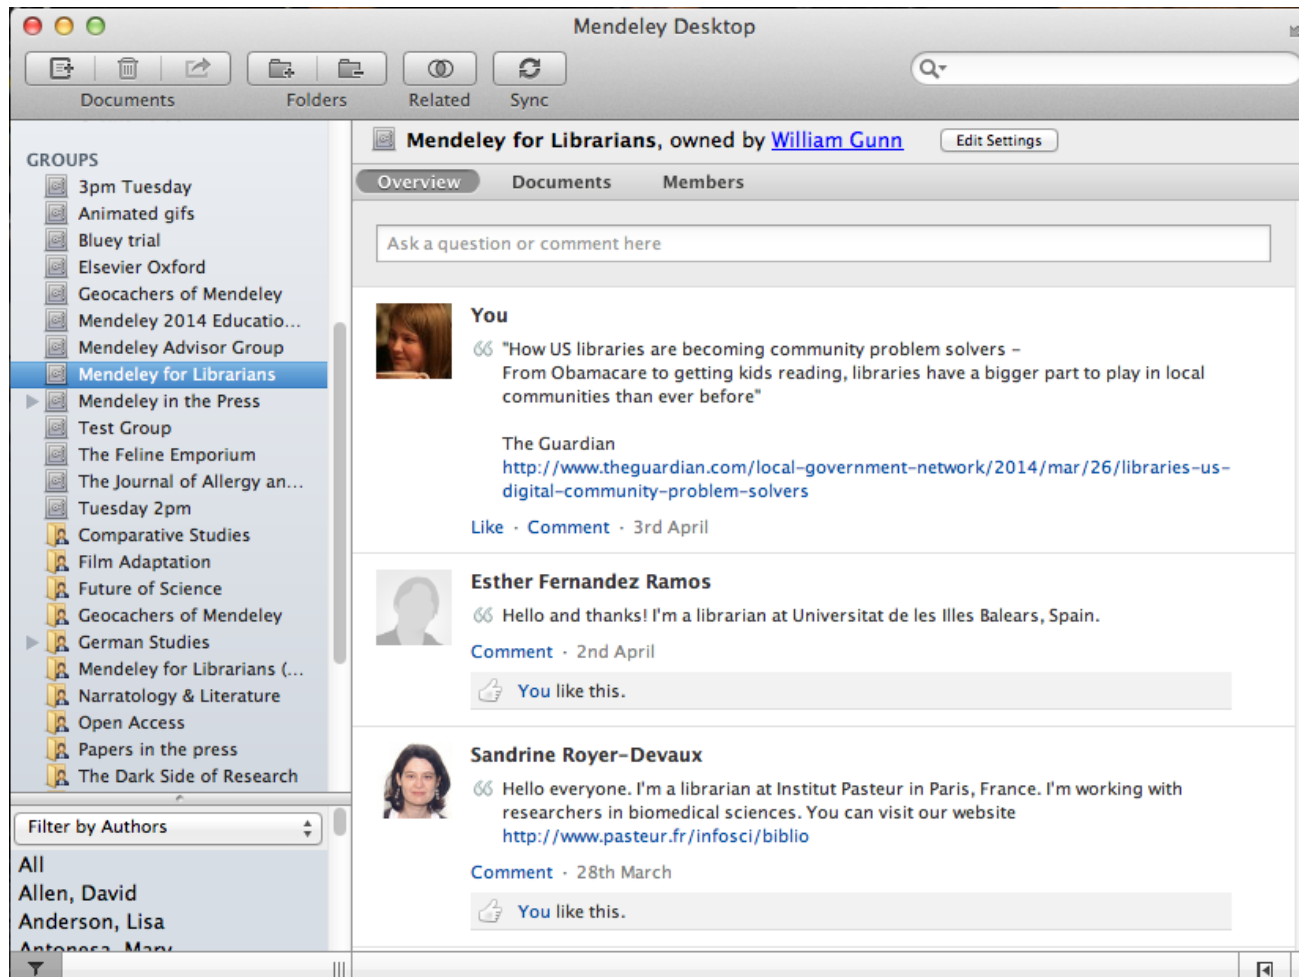

Вы можете создать группу из программы на компьютере, или на сайте mendeley.com.

Вам доступен просмотр информации об активности в Ваших группах (создали, состоите или следите)

Чтобы добавить в группу документы, просто перетащите их.

Закрытые (private) группы

Private группы позволяют Вам обмениваться как ссылками, так и полнотекстовыми документами с членами группы.

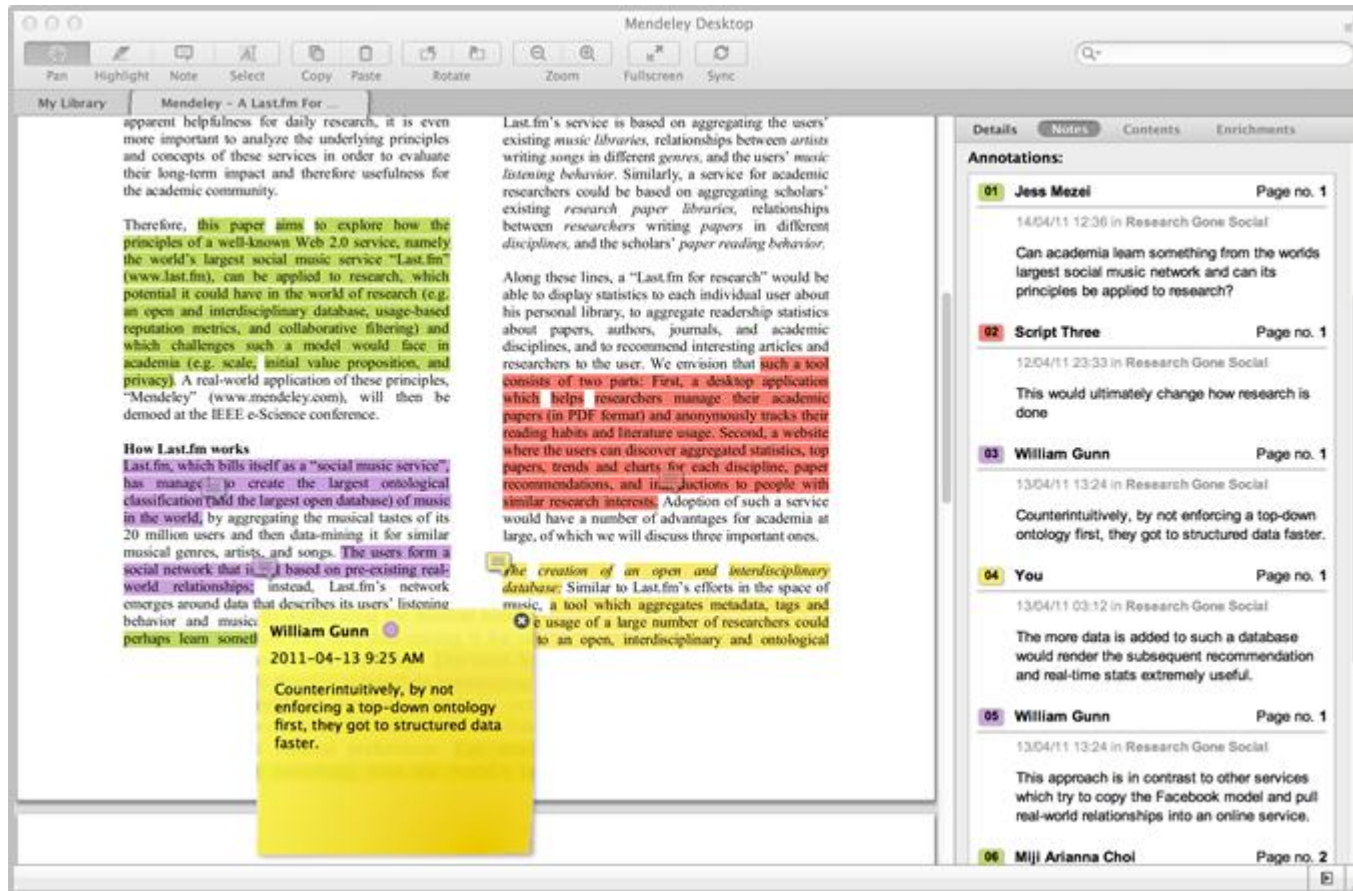

Никто извне группы не может видеть ни состав участников группы, ни размещенные в ней материалы.

Бесплатный объем = 2Gb - (собственные PDF файлы в облаке).

Мало? Можно увеличить [здесь](#) или приобрести спец.тариф для [группы](#).

Работа с общими документами

Только в закрытых (private) группах

Делитесь
полнотекстовыми
статьями с
участниками
закрытой группы.

Используйте
преимущество
общедоступных
заметок и
выделений

Каждому участнику группы присвоен свой цвет для выделения текста.

Группы по приглашению (invite-only)

Invite-only группы позволяют Вам обмениваться с членами группы только ссылками, но не полнотекстовыми документами.

Группа видна снаружи, но для участия необходимо приглашение.

Открытые Public группы

The screenshot shows the Mendeley Groups interface. At the top is a navigation bar with tabs: Dashboard, My Library, Papers, Groups (selected), and People. Below the navigation bar, the heading "Groups" is displayed, followed by the text "In this catalog: 106,690 public groups". A search bar with the placeholder text "Search groups..." and a magnifying glass icon is present, with a suggestion "eg: Social networks" below it. The section "My groups" is followed by the subheading "Groups I am a member of". A group entry for "altmetrics" is shown, featuring a small icon, the group name, a description, a list of tags, and statistics.

Mendeley
Biological Sciences

Discipline summary

Biology is the study of life. It attempts to understand the structure, function, processes and evolution of living organisms and how they relate to their environment. Modern biology covers a wide variety of fields and is highly interdisciplinary, drawing on advances in areas such as computer science, mathematics, psychology. Because biology is such a broad subject, it is subdivided according the ...

Возможен просмотр популярных открытых групп по дисциплинам.

Сколько групп можно создать?

Если у Вас индивидуальный формат (Personal Plan) использования, Вы можете создать только 1 *Private* или *Invite-only* группу и пригласить max 3 участников. Количество *Open* групп не ограничено.

Это не зависит от того используете ли Вы дополнительное пространство для хранения файлов или пользуетесь программой по умолчанию (подробнее).

Оплата позволяет приобрести лишь дополнительное пространство, но не расширяет функциональность программы.

Для создания нескольких закрытых групп с большим количеством участников (до 50) существует коллективный формат (Team Plan), который подойдет для использования в проектах.

Создайте свой профиль

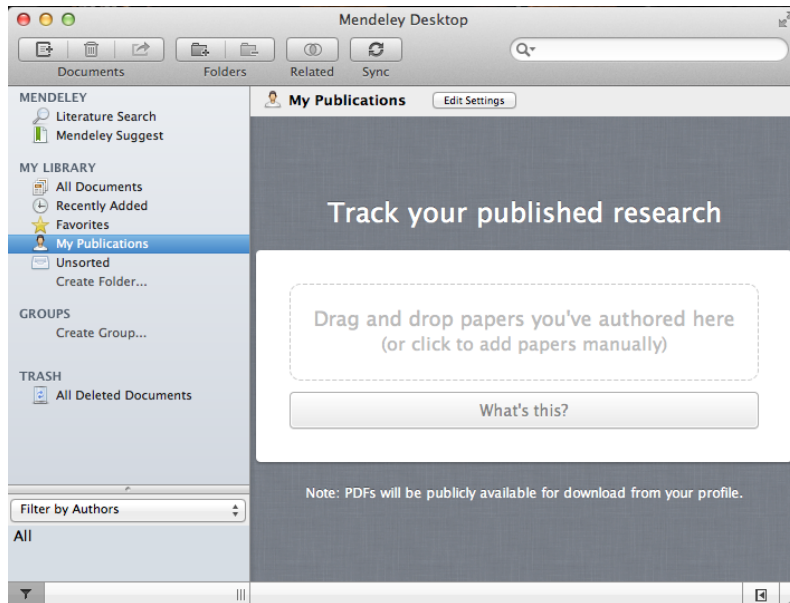

The screenshot shows the Mendeley web interface. At the top, there's a navigation bar with the Mendeley logo and name. Below it, a welcome message for 'Claire van den Broek' is visible. The main navigation menu includes 'Dashboard', 'My Library', 'Papers', 'Groups', and 'People'. A search bar is present with the text 'jan reichelt'. The profile section for 'Dr. Victor Henning' is displayed, showing his profile picture, title 'Co-Founder/CEO, Mendeley & VP Strategy, Elsevier', location 'Amsterdam, Netherlands', and research field 'Psychology - Cognition'. Below this, there's a list of publications under the heading 'Publications'. To the right of the profile, there's a 'Following' button and a list of public groups he is a member of, including '@MyOpenArchive', 'altmetrics', 'Building a healthier scientific...', 'Creatively named research papers', 'Earthquake and Tsunami', 'Future of Science', 'German-speaking Advisors...', 'Interactive Analog Media', 'Mendeley Publications', and 'Organic User Interfaces'. There's also a section for 'Institution groups' where he is a member of 'Elsevier'.

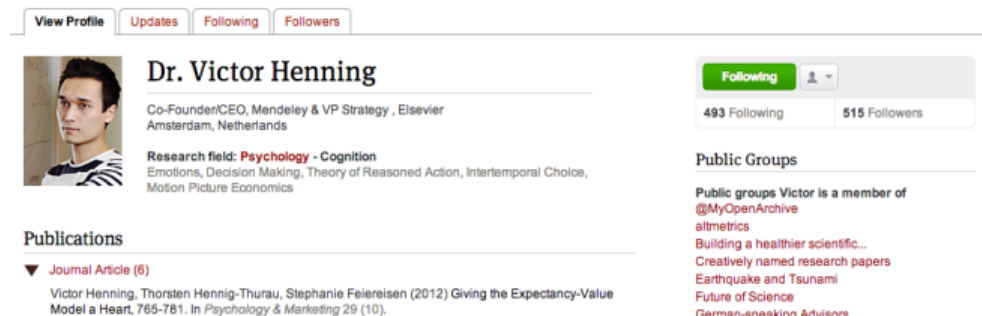

Позвольте коллегам найти Ваш профиль, пригласить в группы и цитировать Ваши работы.

Добавьте ссылки на Ваши публикации, что облегчить их цитирование. Это критически важно для статей из журналов, которые не индексируются в известных библиограф.базах данных.

Покажите свои работы

1. Добавьте Ваши статьи в папку My Publications
2. Mendeley добавит Ваши PDF в общую базу
3. Покажите их в своем профиле

NB: Mendeley предлагает автору либо перенести файлы своих публикаций, либо добавить информацию о них вручную. Более простым способом может оказаться выгрузка информации из Google Scholar (выделить и export), Scopus или ISI Web of Knowledge.

Общайтесь с коллегами

Поиск и функция 'Follow' позволит следить за публичной активностью Ваших коллег.

The screenshot shows the 'People' section of the Mendeley interface. At the top are navigation tabs: Dashboard, My Library, Papers, Groups, and People. Below the tabs is a search bar with the text 'Victor Henning' and a magnifying glass icon. Below the search bar is a list of people. The first person is Victor Henning, Post Doc, Co-Founder/CEO, Mendeley & VP Strategy, with a green 'Following' button. The second person is Victor Henning, Post Doc, with a grey 'Follow' button. The third person is Henning Henning, Ph.D. Student, with a grey 'Follow' button. The fourth person is Henning Dickten, Ph.D. Student, with a grey 'Follow' button. A pagination bar at the top of the list shows 'Prev < 1 2 3 ... 170 > Next'.

Researchers' Choice Communication Award – recognising the Next Generation

25 September 2015 by Sarah Hoey - No Comments »

Did you know that James Watson was just 25 years old when he discovered the double helix structure of DNA with Frances Crick (who was also a doctoral student at the time)? Or that Albert Einstein published his *Theory of Special Relativity* paper in the same year he received his doctorate, aged 26?

Innovative, dynamic young researchers are the key to sustaining the UK's knowledge-based economy – and who knows, maybe even discovering a cure for cancer.

It's not always an easy road, and for many in the early stages of their career, publishing in a reputable journal is just the first hurdle. Researchers are now required to be communicators. To find their way in a crowded arena – you need visibility; and a fresh-faced breed of researchers is now embracing traditional and digital platforms to shout about their science.

We want to recognise these young researchers for the role they are playing in advancing research and human knowledge. So we're calling on you – the research community – to nominate peers, colleagues or friends that you know have gone above and beyond the publication of their research paper, and used any kind of public activity to address misleading information about scientific or medical issues; bring sound evidence to bear in a public or policy debate or helped people to make sense of a rather complex scientific issue.

Mendeley Open API

Портал для разработчиков

The screenshot shows the Mendeley API Reference portal in a web browser. The browser's address bar displays `dev.mendeley.com/slate/#attributes`. The page is titled "Attributes" and features a table with columns for "Parameter", "Type", and "Description". The table lists various document attributes such as "id", "type", "month", "year", "day", "source", "title", "revision", "abstract", and "authors". To the right of the table, there is a "cURL" section with an "Example JSON" block containing a sample document object. The left sidebar contains a navigation menu with links to "Introduction", "Authentication", "Versioning", "CORS", "Pagination", "Documents", "Attributes", "Retrieving a single document", "Retrieving documents", "Creating a document", "Updating documents", "Deleting documents and Trash", "Catalog Documents", "Trash", "Files", "Annotations", "Groups", "Folders", "Profiles", "Errors", and a "Sign Up for a Developer Key" link.

| Parameter | Type | Description |
|-----------|---------|--|
| id | string | Identifier (UUID) of the document. This identifier is set by the server on create and it cannot be modified. |
| type | string | The type of the document. Supported types: journal, book, generic, book_section, conference_proceedings, working_paper, report, web_page, thesis, magazine_article, statute, patent, newspaper_article, computer_program, hearing, television_broadcast, encyclopedia_article, case, film, bill. |
| month | integer | Month in which the document was issued/published. This should be an integer between 1 and 12. |
| year | integer | Year in which the document was issued/published. |
| day | integer | Day in which the document was issued/published. This should be an integer between 1 and 31. |
| source | string | Publication outlet, i.e. where the document was published. |
| title | string | Title of the document. This is a required field. |
| revision | string | Number identifying the item (e.g. a report number). |
| abstract | string | Brief summary of the document. |
| authors | array | List of authors of the document. This is a collection (array) of person objects, which include first_name and last_name (strings). |
